OBJECTIVE

Seeking a mechanical engineering internship or co-op focused on the R&D or manufacturing of transformative hardware systems.

EDUCATION

University of Wisconsin - Madison

Bachelor of Science, Mechanical Engineering, May 2029

GPA: 4.0

ENGINEERING EXPERIENCE

Sappi, Cloquet, MN

Reliability Engineering Intern (May 2026 - August 2026)

- Developed lubrication routes and updated data for hundreds of lubrication points
- Investigated equipment failures and collaborated on RCFAs to reduce downtime
- Learned to safely work in an industrial environment and contributed to hazard reduction

Wisconsin Racing, Formula SAE, Madison, WI

- Programmed tool paths with Mastercam and machined 150+ suspension components
- Designed a tire stiffness testing jig to validate tire compliance data

Wisconsin Humanoid, Madison, WI

- Created a teleoperated exoskeleton for control and policy training of a robotic hand
- Collaborated with a multi-disciplinary team to research humanoid hand design

Ripsaw Robotics, FIRST Robotics Competition, Cloquet, MN

Team Captain, Design Fabrication Lead

- Led a team of 25 students to design, build, and program competitive robots
- Trained new members in fabrication processes and CAD modeling
- Maintained and troubleshoot CNC mills, 3D printers, and a plasma cutter

Physics Capstone, Cloquet Senior High School

- Designed, fabricated, and tested a self-balancing robot to demonstrate the inverted pendulum problem
- Programmed an ESP32 with C++ to read gyro values and control motors with PIDs

OTHER EXPERIENCE

United Way of Carlton County, MN

Board of Directors, Student Director

- Assisted in allocating thousands of dollars to local charity organizations
- Volunteered at philanthropic fundraising and community events

Super One Foods, Cloquet, MN

Cashier (July 2024 - August 2025)

- Collaborated to assist customers and manage front-end inventory
- Mentored new coworkers, improving their customer service skills

SKILLS

Software: SolidWorks, AutoCAD, Fusion, Onshape, C++, Python, Mastercam

Fabrication: CNC and Manual Machining, 3D Printing, Welding
